- Both window and solid cover versions available

# ACE WP

## Weatherproof Accessory Enclosures

These surface mountable, weatherproof enclosures are built to NEMA 4X standards and available in a variety of sizes to meet your application needs.

## SPECIFICATIONS

Every durable box is fabricated from 14 gauge cold rolled steel and finished with a durable, powder coat polyester. Standard units are available in platinum gray with either solid or windowed covers.

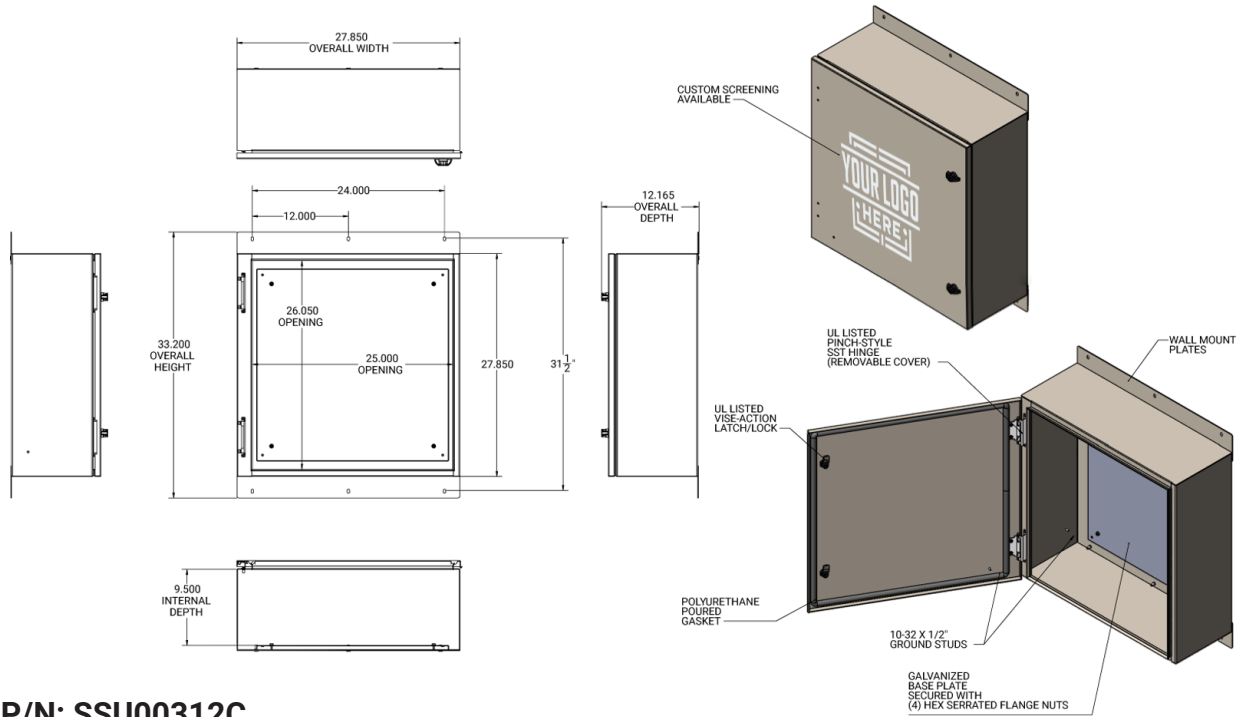

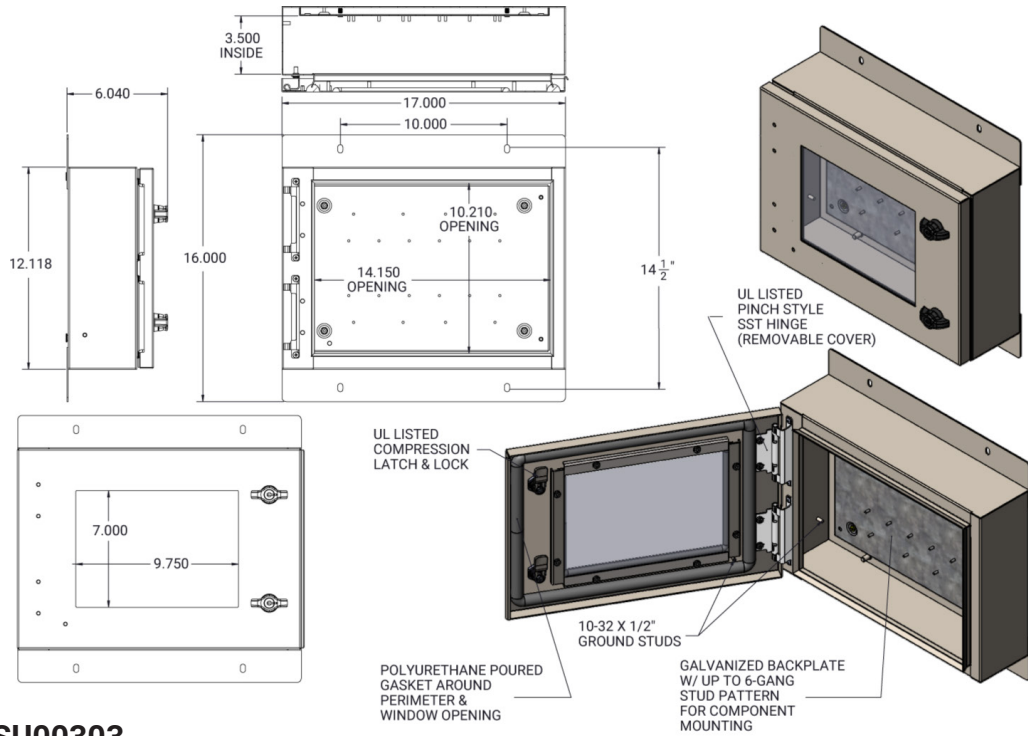

Front cover features a Form-in-Place gasket made of polyurethane foam and an optional polycarbonate window. Custom labeling available on windowless covers. 18 gauge galvanized, removable back plate is mounted on studs to the back box. Plate clears the back box by 0.5" to accommodate mounted hardware. Custom equipment mounting can be accomplished with self-tapping drill screws. Cover and back box include a threaded grounding stud and lug.

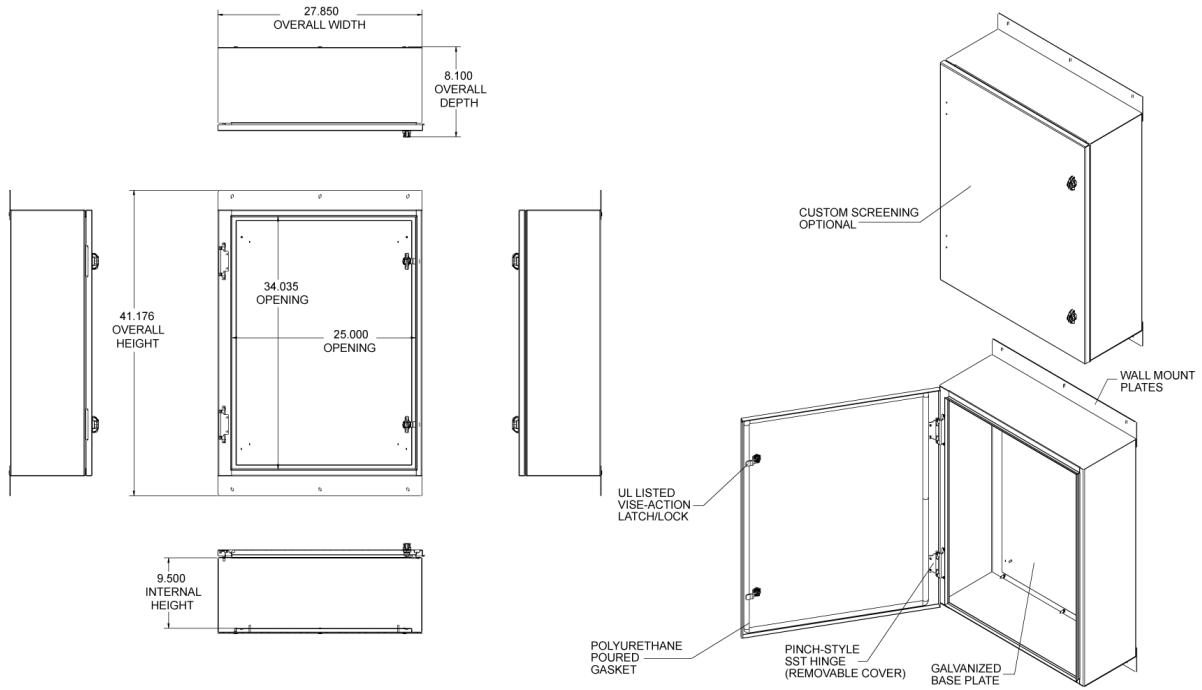

SSU09661 and SSU09664 include side-mounted, sealed heat/AC unit with adjustable thermostat.

## CUSTOM BRANDING AVAILABLE
