

## SDH

### Sprinkler System Document Enclosure

#### FEATURES

- 18 gauge cold rolled steel construction with red or black powder coat and white lettering
- Dimensions are 13.25" wide x 23.75" tall and 5.5" deep
- Liftaway hinge
- Wing Latch style closure (key locks available)
- Shelves to store spare sprinkler heads
- Optional slide tab allows user to select USB-C or Micro USB connector to download from 8GB digital flash memory

#### CUSTOM BRANDING AVAILABLE

Store important Sprinkler System Documents in a secure location with an enclosure built specifically to meet NFPA13 code requirements.

Accessory available to integrate our innovative 8GB flash drive slide tab that allows the user to select a USB-C or Micro USB connector to access records electronically per NFPA72 7.5.6.7.1 and NFPA72 7.5.6.7.2.

#### SPECIFICATIONS

The SDH Document Enclosure shall be constructed of 18 gauge cold rolled steel. It shall have a powder coat finish. The cover shall be permanently screened with 1" high lettering "SYSTEM RECORD DOCUMENTS AND SPARE SPRINKLER HEADS" with white indelible ink. The access door shall be secured with a wing latch and there will be a liftaway hinge. Optional digital storage will have a minimum of 8 gigabyte digital flash memory drive with a slide tab that allows user to select USB-C or Micro USB connector for uploading and downloading information. The enclosure will supply 4 mounting holes. Inside will accommodate standard 8 1/2" x 11" manuals, three-ring binders, and document records. The enclosure shall also provide two shelves for storing spare sprinkler heads.
