

FP4/5

Fire Plates

Satisfying 2013 UFC 3-600-01, section 5-7.8 and NEC 760.30, the FP4 and FP5 fire plates are designed to provide quick visual identification of field wiring with the nationally recognized NFPA fire symbol.

SPECIFICATIONS

The FP4/FP5 Fire Plate will be made of 18 gauge cold rolled steel and shall have a red finish. The FP4 will measure 4 3/8" x 4 3/8". The FP5 will measure 4 3/4" x 4 3/4". The word "FIRE" will have 1" tall lettering and shall have the nationally recognized NFPA fire symbol. The lettering and fire symbol will be screened with white indelible ink. There will be an address label adhered on reverse side for quick circuit identification.
